Figure 2-3.
Simulated Lake Surface Elevation - No-Restriciton Alternative

Note: Simulation is based on 1940-1989 historical hydrology beginning at the point-of-reference lake surface elevation.

Figure 2-4.
Lake Configuration at Equilibrium Lake Level - No-Restriction Alternative

Transition Period: 50-100 years
Annual Average Export: 85 TAF
Annual Average Release: 32 TAF
